monoatomic ion transmembrane transport
negative regulation of B cell proliferation
removal of superoxide radicals
negative regulation of TORC1 signaling
synaptic transmission, cholinergic
meiotic telomere clustering
positive regulation of telomerase catalytic core co...
establishment of protein−containing complex localiz...
establishment of RNA localization to telomere
pre−B cell allelic exclusion
Biological Processes
beta−galactosidase activity
cadmium ion binding
cysteine−type endopeptidase activity involved in ex...
nitric−oxide synthase activity
ATP−dependent peptidase activity
BMP receptor binding
acetylcholine−gated monoatomic cation−selective cha...
galactoside binding
leukotriene−B4 20−monooxygenase activity
glucuronosyl−N−acetylgalactosaminyl−proteoglycan 4−...
